FLEXA Digital Pirani Vacuum Gauge FGD-1GH-2SP

The UVS **Model FLEXA series** Vacuum Pirani Gauge Controller displays vacuum pressure as measured from a **FG-04 sensor tube**. The **Model FG-1GH-2SP** displays vacuum measurements from 2000 to 0.1 Pascals, and has two built in potential free contact set point relay outputs .

The Advantage Of This Vacuum Gauge FLEXA Series Is The Sensor Tube Has The Built In Zero And Atm Adjustments, So That The Sensor Tube Can Be Used As A Transducer, And Each Sensor Is Factory Calibrated At Sensor Level.

With This 1:1 Replacement Of Sensor With The Display Unit Is Established, And There Is No Dependency On Vacuum Gauge Level Adjustment In Case Of Sensor Replacement.

TECHNICAL SPECIFICATIONS

Number of sensor channels	ONE
Measuring Range	2000 to 0.1 Pascal
Measuring unit	Pascal
Vacuum Gauge Head	FG-04 sensor tube
Temp. Range	+2 to +50 deg. Celsius
VAC. Display	4-digit bright red LED, 14 mm high
VAC and ATM Adjust	adjusted by trim pot at the signal conditioner PCB of the sensor.
Process control set points	Two
Process Control Relays	Two relay outputs, potential free contacts; available through 6 pin metal shell connector on the rear panel
Nonvolatile Memory	Only for set points
Operating Voltage	universal power supply, input voltages from 90 ~ 264VAC 50/60 Hz
Mounting	1/4 DIN 92 x 92 mm (3.62" x 3.62")
Environmental Considerations	not for use with explosive or corrosive gases
Overall dimensions	92mm X 92mm X 110mm Depth
Optional outputs on request	RS485, 0 -10V DC non linear analog output (optional)
Sensor cable	Standard RJ45 male plugs both ends- 2 mtrs long. Optional additional lengths available on request.

Features at a Glance : ■ **Measurement range 2000 to 0.1 Pascal** ■ **Space saving rugged design- 1/8 DIN console** ■ **brass body measuring cell with metal-sealed feed through** ■ **with universal power supply** ■ **interchangeability of the sensor possible without disturbing the display unit.**

Applications: ■ Controlling high vacuum systems ■ Fore vacuum pressure monitoring ■ Safety circuits in vacuum systems ■ General vacuum measurement & control in the fine and rough vacuum range.

Calibration:

Unique Vacuum Solutions offers a convenient recalibration service to help users of vacuum measurement pirani/ thermocouple/ full range gauges to maintain all of their vacuum gauges in Certified and peak condition, regardless of the original manufacturer. All makes of vacuum gauges can also be calibrated / repaired if required. The calibration certificates are available only on request at additional cost. Pl contact before ordering.
